1.0 **Introduction**

1.1 The Documentation Policy will guide the work of Colchester and Ipswich Museum Service in the field of collections documentation.

1.2 The aim of the Documentation Policy is to ensure that the museum fulfils its responsibilities in relation to security, management and access of collections.

- Improve accountability for collections
- Maintain at least minimum professional standards in documentation
- Extend access to collection information
- Strengthen the security of the collections

1.3 The purpose of the Colchester and Ipswich Museum Service's (CIMS) documentation system is to:

- Establish exactly what is in the collections at any one time
- Establish the legal rights and responsibilities for those collections
- Maintain an up to date location record for every object in the collections
- Link objects with their associated information, including provenance, associations and collections management history
- Enable retrieval of objects and their associated information
- Enable access to objects and their associated information for staff and volunteers through the Modes Complete database
- Enable access in the future to objects and their associated information for the public through an online database
- Provide insurance information for Colchester and Ipswich Borough Councils
- Provide audit information for Colchester and Ipswich Borough Councils

2.0 **General**

2.1 Collections information is recorded in compliance with all current UK legal requirements, including the Data Protection Act (1998) and the Freedom of Information Act (2000).

2.2 Collections information is acquired, stored, managed and used in compliance with The Museum Association's 'Code of Ethics for Museums' and to SPECTRUM Standards. The former states under the principle of 'Stewardship of collections' (page 10) that 'Museums and those who work in

Colchester+Ipswich
Museums

and with them should acquire, care for, exhibit and loan collections with transparency and competency in order to generate knowledge and engage the public with collections' ('Code of Ethics for Museums', Museums Association, 6th Edition 2015).

2.3 Collections information is recorded on the CIMS Collections Management System – Modes Complete. In order to preserve the database, the system is maintained by Colchester Borough Council's IT Provider and through subscription to the MODES Users Association. The system is backed up weekly, monthly, and six-monthly by ICT services and manual backups are undertaken by collections staff after substantial changes have been made.

2.4 A partial copy of the handwritten Accession Registers is also in digital format which can be printed out as required.

2.5 Colchester and Ipswich Museum Service is committed to improving access to collections information and is actively tackling collections backlogs where these exist.

3.0 **Object entry**

3.1 Deposits of material will be accepted for the following purposes:

- Consideration for accessioning into the collections
- Objects on loan for display or identification

3.2 No object should be deposited without the authorisation of the Collections and Learning Team

3.3 An entry form must be completed for all deposits. These are held in perpetuity as a record of the object.

3.4 A deposit will be returned if:

- The object is deemed not suitable for accessioning into the collections
- The loan period, for display or identification, has ended.

3.5 Objects that are not accepted into the collections will be returned to the depositor. If the depositor cannot be contacted after a period of no less than three months and after formal notice in writing, the object will be disposed of in accordance with the procedures set out in the Collections Development Policy.
